Summary

As a **React Developer**, I specialize in building **intuitive and responsive web applications** with a strong foundation in **React.js, Node.js, Git, and HTML**. I am passionate about **creating seamless user experiences** by integrating **modern technologies and best practices**. With expertise in **REST APIs and JWT authentication**, I ensure **secure and scalable web solutions**, prioritizing **data integrity and user trust**. My collaborative approach and commitment to **performance optimization** help deliver high-quality, **accessible, and engaging applications** in dynamic tech environments.

Experience

ADG Online Solutions

Delhi, India

Frontend Developer

06/2023 - Present

ADG Online Solutions specializes in **developing government ministry projects**, working with **LB Labour Bureau, NIC, DRDO, NIUA, and BRO** using **PHP-based technologies** to build secure and scalable solutions.

- Developed and maintained **government ministry projects**, ensuring **99.9% uptime** while focusing on performance, security, and scalability.
- Led frontend development for the **National Web Quality Index** under the **National Informatics Center (NIC)**, enabling **500+ authorized users** to generate website scores based on security, privacy, performance, mobile responsiveness, and content quality.
- Contributed to **Website Ranking AI**, adding **10+ ranking categories**, automated reporting, and billing functionalities, increasing report generation efficiency by **30%**.
- Engineered the **Ministry of IDEX Portal** for the **Ministry of Defence**, facilitating **real-time tracking of 500+ crore in grants, disbursements, and approvals**.
- Integrated **React.js, Next.js, Redux Toolkit, and Tailwind CSS** across **8+ projects**, improving **development efficiency by 40%**.
- Optimized application performance, reducing page load times by **35%**, improving API response time by **50%**, and increasing user engagement by **20%**.
- Worked closely with backend teams to streamline data fetching, authentication, and role-based access control, reducing API call redundancy by **50%**.

Tech9logy Creators

Faridabad, India

Associate Frontend Developer

02/2023 - 05/2023

Tech9logy Creators specializes in **MERN stack e-commerce development**, building **scalable, secure, and high-performance online stores** with seamless user experiences.

- Developed the frontend** of a region-wise **e-commerce platform for fruits and vegetables**, implementing a seamless **UI/UX with React.js and Next.js**, resulting in a **20% improvement in user engagement**.
- Built an admin dashboard** for product and order management, integrating **region-based access control**, leading to a **30% increase in operational efficiency**.
- Developed a **React-based image processing web page** using **Face-API.js**, achieving **95%+ accuracy** in real-time face detection.
- Integrated **REST APIs, authentication systems, and payment gateways**, reducing payment failures by **30%** and improving transaction success rates.

Web2Rise

Faridabad, India

Frontend Developer

02/2022 - 02/2023

Web2Rise focuses on **developing small-scale websites** using **HTML, CSS, and vanilla JavaScript**, delivering **lightweight, fast, and user-friendly web solutions** for businesses.

- Developed and enhanced **Resume Builder**, a **dynamic web application** serving **500+ users**, allowing them to create, customize, and download professional resumes.
- Implemented **interactive form fields**, improving user engagement by **40%**.
- Integrated **Kendo React UI Library**, offering **5+ customizable resume templates** with real-time preview and export functionality, increasing user retention by **35%**.
- Optimized resume generation and PDF export, ensuring high-quality, structured layouts across different templates.
- Enhanced state management using **Redux Toolkit**, improving data handling and component reusability.
